FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4320 was drawn up by Technical Committee ISO/TC 91, *Surface active agents*, and was circulated to the member bodies in October 1975.

It has been approved by the member bodies of the following countries :

Austria	Iran	Portugal
Belgium	Italy	Romania
Brazil	Japan	South Africa, Rep. of
Canada	Korea, Dem. P. Rep. of	Spain
France	Mexico	Switzerland
Germany	Netherlands	Turkey
Hungary	New Zealand	United Kingdom
India	Poland	U.S.A.

No member body expressed disapproval of the document.
