Rectified oil of *Eucalyptus globulus* Labillardière, Portugal

Huile essentielle rectifiée d'Eucalyptus globulus Labillardière, Portugal

First edition — 1983-10-15

UDC 665.526.78

Ref. No. ISO 4732-1983 (E)

Descriptors : essential oils, eucalyptus, classifications, material specifications.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4732 was developed by Technical Committee ISO/TC 54, *Essential oils*, and was circulated to the member bodies in March 1982.

It has been approved by the member bodies of the following countries:

Austria	Egypt, Arab Rep. of	Portugal
Brazil	France	South Africa, Rep. of
Canada	India	USSR
China	Netherlands	

The member body of the following country expressed disapproval of the document on technical grounds:

Australia
