Commercial refrigerated cabinets — Technical specifications — Part 2 : Particular requirements

*Meubles frigorifiques commerciaux — Spécifications techniques —
Partie 2 : Exigences particulières*

First edition — 1980-09-01

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5160/2 was developed by Technical Committee ISO/TC 86, *Refrigeration*, and was circulated to the member bodies in November 1978.

It has been approved by the member bodies of the following countries :

Chile	Netherlands	Turkey
Czechoslovakia	New Zealand	United Kingdom
Finland	Poland	USA
Hungary	Romania	USSR
Israel	South Africa, Rep. of	Yugoslavia
Korea, Rep. of	Sweden	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

France
Germany, F. R.
Switzerland
