Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5485/2 was developed by Technical Committee ISO/TC 8, *Shipbuilding*, and was circulated to the member bodies in February 1979.

It has been approved by the member bodies of the following countries :

Austria	Germany, F. R.	Poland
Belgium	India	Romania
Brazil	Italy	Spain
Bulgaria	Japan	United Kingdom
China	Korea, Dem. P. Rep. of	USSR
Czechoslovakia	Korea, Rep. of	Yugoslavia
Finland	Libyan Arab Jamahiriya	
France	Mexico	

The member body of the following country expressed disapproval of the document on technical grounds :

Netherlands
