Descriptors : sport equipment, gymnastic equipment, mats, dimensions, specifications.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5905 was developed by Technical Committee ISO/TC 83, *Sports and recreational equipment*, and was circulated to the member bodies in December 1979.

It has been approved by the member bodies of the following countries :

Austria	Netherlands	Switzerland
Egypt, Arab Rep. of	Poland	USSR
Germany, F. R.	South Africa, Rep. of	
India	Spain	

The member body of the following country expressed disapproval of the document on technical grounds :

France

This International Standard was drawn up by Sub-committee ISO/TC 83/SC 1, *Gymnastic equipment*, in co-operation with the International Gymnastic Federation (IGF).
