Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 756/1 was developed by Technical Committee ISO/TC 47, *Chemistry*, and was circulated to the member bodies in October 1980.

It has been approved by the member bodies of the following countries :

Australia	Egypt, Arab Rep. of	Korea, Rep. of
Austria	France	Netherlands
Belgium	Germany, F. R.	Poland
Brazil	Hungary	Romania
Bulgaria	India	Switzerland
China	Ireland	United Kingdom
Czechoslovakia	Italy	USSR

The member body of the following country expressed disapproval of the document on technical grounds :

South Africa, Rep. of

International Standards ISO 756/1, ISO 756/2 and ISO 756/3 cancel and replace ISO Recommendation R 756-1968 of which they constitute a technical revision.
