Laboratory glassware — Disposable Pasteur pipettes

Verrerie de laboratoire — Pipettes Pasteur à usage unique

First edition — 1983-12-15

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 7712 was developed by Technical Committee ISO/TC 48, *Laboratory glassware and related apparatus*, and was circulated to the member bodies in July 1982.

It has been approved by the member bodies of the following countries :

Australia	India	Romania
Brazil	Italy	South Africa, Rep. of
Czechoslovakia	Korea, Rep. of	United Kingdom
France	Netherlands	USA
Germany, F.R.	Poland	USSR
Hungary	Portugal	

No member body expressed disapproval of the document.
