Page 36

Table 12

Insert the following line before "Redirection of Incoming Messages":

"MS Register	A	B.4n"
--------------	---	-------

Page 53

Annex B

Insert the following before B.45:

"B.4n	<u>MS Register</u>	MS
-------	--------------------	----

This element of service allows a user of a Message Store to register various information with it in order to modify aspects of its behaviour, such as:

1. the performance of automatic actions;
2. the default set of information retrieved when using the stored message fetching and stored message listing elements of service;
3. the credentials used by the Message Store to authenticate the MS-user."
