Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 2 to International Standard ISO/IEC 10030:1990 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*.

Annex B forms an integral part of ISO/IEC 10030.

Withd

Introduction

This amendment to ISO/IEC 10030 : 1990 consists of five items to be added to ISO/IEC 10030 : 1990. The main item is a new annex containing the Protocol Implementation Conformance Statement (PICS) proforma for ISO/IEC 10030 : 1990. The four other items add related material to clauses 1 through 4 (Scope, Normative references, Definitions and Abbreviations). The remaining clauses 5 to 12, and the present annex, of ISO/IEC 10030 : 1990 are unchanged by this amendment.
