
**Identification cards — Test methods —
Part 5:
Optical memory cards**

*Cartes d'identification — Méthodes d'essai —
Partie 5: Cartes à mémoire optique*

Contents

1 Scope 1

2 Normative references 1

3 Terms and Definitions 1

4 Default items applicable to the test methods 2

4.1 Test environment..... 2

4.2 Pre-conditioning 2

4.3 Selection of test methods 2

4.4 Default tolerance..... 2

4.5 Total measurement uncertainty 3

5 Test methods..... 3

5.1 Location of accessible optical area and reference track..... 3

5.1.1 Procedure 3

5.1.2 Test report 3

5.2 Skew 4

5.2.1 Apparatus 4

5.2.2 Procedure 4

5.2.3 Test report 5

5.3 Defects 5

5.3.1 Apparatus 5

5.3.2 Procedure 5

5.5 Test report 5

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

International Standard ISO/IEC 10373-5 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 17, *Identification cards and related devices*.

ISO/IEC 10373 consists of the following parts, under the general title *Identification cards — Test methods*:

- *Part 1: General characteristics tests*
- *Part 2: Cards with magnetic stripes*
- *Part 3: Integrated circuit(s) cards*
- *Part 5: Optical memory cards*
