Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 6 to International Standard ISO/IEC 10646-1:1993 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 2, *Coded character sets*.

Part 1:

Architecture and Basic Multilingual Plane

AMENDMENT 6: Tibetan

Page 11, Clause 19

In the list of Block names, after the entry LAO insert new entry as follows:

BASIC TIBETAN 0F00 - 0FBF

Page 15, Clause 25, Figure 3

In Figure 3 replace the cross-hatched row between rows 0E and 10 with a new row 0F, in which the rightmost quarter of the row is cross-hatched, and the remainder of the row contains the word:

Basic Tibetan

centred on a white background.

After page 69

Add the following new tables titled:

Table 212 - Row 0F: BASIC TIBETAN

Table 212 - Row 0F: BASIC TIBETAN
