RECTIFICATIF TECHNIQUE 3

Technical Corrigendum 3 to ISO/IEC 26300:2006 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 34, *Document description and processing languages*.

The text of this Technical Corrigendum combined with the text of ISO/IEC 26300:2006/Amd.1:2012/Cor.1:2014 are together technically equivalent to Appendix C of 'Open Document Format for Office Applications (OpenDocument) Version 1.1 Errata 01' published by OASIS.

This Technical Corrigendum should be read in conjunction with ISO/IEC 26300:2006 and the associated Technical Corrigenda ISO/IEC 26300:2006/Cor.1:2010 and ISO/IEC 26300:2006/Cor.2:2011. The current edition of ISO/IEC 26300 should be understood by first applying the changes specified in ISO/IEC 26300:2006/Cor.1:2010 and ISO/IEC 26300:2006/Cor.2:2011, then the changes specified in this Technical Corrigendum.

Notation conventions

The title of each correction is the complete reference to the clause (section or sub-section) being corrected. In all cases the title begins with the clause number, the section or sub-section name, and the page number. In most cases the location of the correction is more precisely indicated by a paragraph number or other indicator. Paragraph numbers are determined by counting the number of paragraphs from the beginning of the section or sub-section in question, ignoring lists, tables and examples. *after* the application of any previous correction. Page numbers refer to ISO/IEC 26300:2006 *before* the application of any previous correction.

In the case of corrections to the normative Relax-NG schema, the lines of the schema that are corrected are indicated in italics below the heading. Schema line numbers refer to the *corrected* schema. Other guidance on the intended application of a correction may be given in italics below the heading.

A correction may contain any one or more of the following kinds of edits:

Addition of text: New text is displayed in blue and is underlined, as demonstrated here.

Deletion of text: ~~Deleted text is displayed in red and is struck through, as demonstrated here.~~

Formatting changed: Re-formatted text is displayed in purple and double-underlined, as demonstrated here.

An ellipsis '...' is occasionally used to indicate deliberate omission of fragments of the original text that are unchanged by this Technical Corrigendum and would unreasonably extend the text of this Technical Corrigendum.
