# ISO RECOMMENDATION R 1016

DETERMINATION OF ASH  
OF BROWN COALS AND LIGNITES

1st EDITION  
March 1969

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

## BRIEF HISTORY

The ISO Recommendation R 1016, *Determination of ash of brown coals and lignites*, was drawn up by Technical Committee ISO/TC 27, *Solid mineral fuels*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question led, in 1966, to the adoption of a Draft ISO Recommendation.

In August 1967, this Draft ISO Recommendation (No. 1283) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

|                |                |                       |
|----------------|----------------|-----------------------|
| Australia      | Iran           | South Africa, Rep. of |
| Austria        | Italy          | Spain                 |
| Canada         | Japan          | Switzerland           |
| Czechoslovakia | Korea, Rep. of | Turkey                |
| Denmark        | Netherlands    | U.A.R.                |
| France         | New Zealand    | United Kingdom        |
| Germany        | Portugal       | U.S.S.R.              |
| India          | Romania        | Yugoslavia            |

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in March 1969, to accept it as an ISO RECOMMENDATION.
