ISO RECOMMENDATION R 1053

CHEMICAL ANALYSIS OF ZINC

SPECTROPHOTOMETRIC DETERMINATION OF COPPER

1st EDITION

April 1969

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 1053, *Chemical analysis of zinc – Spectrophotometric determination of copper*, was drawn up by Technical Committee ISO/TC 18, *Zinc and zinc alloys*, the Secretariat of which is held by the Institut Belge de Normalisation (IBN).

Work on this question led, in 1966, to the adoption of a Draft ISO Recommendation.

In November 1967, this Draft ISO Recommendation (No. 1286) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	India	South Africa, Rep. of
Belgium	Iran	Spain
Brazil	Israel	Sweden
Canada	Italy	Turkey
Chile	Korea, Dem.P. Rep. of	U.A.R.
Czechoslovakia	Korea, Rep. of	United Kingdom
France	New Zealand	U.S.A.
Germany	Norway	Yugoslavia
Greece	Poland	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in April 1969, to accept it as an ISO RECOMMENDATION.
