ISO RECOMMENDATION R 1082

SHACKLE TYPE CONNECTOR UNITS
FOR HIGH-TENSILE STEEL CHAIN FOR CONVEYORS

1st EDITION

May 1969

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 1082, *Shackle type connector units for high-tensile steel chain for conveyors*, was drawn up by Technical Committee ISO/TC 82, *Mining*, the Secretariat of which is held by the Deutscher Normenausschuss (DNA).

Work on this question led to the adoption of a Draft ISO Recommendation.

In December 1967, this Draft ISO Recommendation (No. 1289) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	Iran	South Africa
Belgium	Israel	Spain
Chile	Italy	Sweden
Czechoslovakia	Japan	Turkey
France	Korea, Rep. of	U.A.R.
Germany	Netherlands	United Kingdom
Greece	New Zealand	Yugoslavia
India	Poland	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in May 1969, to accept it as an ISO RECOMMENDATION.

CONTENTS

	Page
1. Scope	5
2. Field of application	5
3. Definitions	5
4. Components of connector units	6
4.1 Shackle type connectors	6
4.2 Connector bolt and nut	6
5. Sampling and testing	6
5.1 General	6
5.2 Sampling	7
5.3 Testing	7
5.3.1 Dimensional tests	7
5.3.2 Static tensile tests	7
5.3.3 Dynamic tests (pulsator tests)	8
6. Inspection procedure	8
6.1 Acceptance	8
6.2 Marking	8
6.3 Test certificate	8
6.4 General inspection	8
