For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

## BRIEF HISTORY

The ISO Recommendation R 1095, *Shipbuilding details – Toughened glasses for ships' side scuttles and fixed lights*, was drawn up by Technical Committee ISO/TC 8, *Shipbuilding details*, the Secretariat of which is held by the Nederlands Normalisatie-Instituut (NNI).

Work on this question led to the adoption of a Draft ISO Recommendation.

In March 1967, this Draft ISO Recommendation (No. 1162) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

|                |                       |                |
|----------------|-----------------------|----------------|
| Australia      | Ireland               | Sweden         |
| Belgium        | Israel                | Switzerland    |
| Brazil         | Italy                 | Thailand       |
| Bulgaria       | Japan                 | Turkey         |
| Czechoslovakia | Netherlands           | U.A.R.         |
| Finland        | Poland                | United Kingdom |
| France         | South Africa, Rep. of | Yugoslavia     |
| India          | Spain                 |                |

One Member Body opposed the approval of the Draft :

Germany

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in June 1969, to accept it as an ISO RECOMMENDATION.
