BRIEF HISTORY

The ISO Recommendation R 1097, *Plywood – Measurement of dimensions of panels*, was drawn up by Technical Committee ISO/TC 89, *Boards made from wood or other lignocellulosic fibrous materials*, the Secretariat of which is held by the Deutscher Normenausschuss (DNA).

Work on this question led to the adoption of a Draft ISO Recommendation.

In June 1968, this Draft ISO Recommendation (No. 1582) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	Iran	South Africa, Rep. of
Austria	Israel	Spain
Canada	Italy	Sweden
Colombia	Netherlands	Switzerland
Czechoslovakia	New Zealand	Thailand
Finland	Norway	Turkey
France	Peru	U.A.R.
Germany	Poland	United Kingdom
Hungary	Portugal	
India	Romania	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in June 1969, to accept it as an ISO RECOMMENDATION.
