ISO RECOMMENDATION R 1099

AXIAL LOAD FATIGUE TESTING

1st EDITION

July 1969

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 1099, *Axial load fatigue testing*, was drawn up by Technical Committee ISO/TC 17, *Steel*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question led to the adoption of a Draft ISO Recommendation.

In June 1968, this Draft ISO Recommendation (No. 1351) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	India	Romania
Brazil	Israel	South Africa, Rep. of
Canada	Italy	Spain
Colombia	Japan	Switzerland
Czechoslovakia	Korea, Rep. of	Thailand
Denmark	Netherlands	Turkey
Finland	Norway	United Kingdom
Germany	Peru	U.S.A.
Hungary	Poland	U.S.S.R.

Four Member Bodies opposed the approval of the Draft :

Belgium
France
New Zealand
Sweden

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in July 1969, to accept it as an ISO RECOMMENDATION.
