The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

## BRIEF HISTORY

The ISO Recommendation R 1179, *Pipe connections for industrial application for plain end steel and other metal tubes*, was drawn up by Technical Committee ISO/TC 5, *Pipes and fittings*, the Secretariat of which is held by the Association Suisse de Normalisation (SNV).

Work on this question led to the adoption of a Draft ISO Recommendation.

In August 1968, this Draft ISO Recommendation (No. 1676) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

|                |                       |             |
|----------------|-----------------------|-------------|
| Australia      | Hungary               | Spain       |
| Belgium        | India                 | Sweden      |
| Canada         | Israel                | Switzerland |
| Czechoslovakia | Italy                 | Thailand    |
| Finland        | Netherlands           | Turkey      |
| France         | Poland                | U.A.R.      |
| Greece         | South Africa, Rep. of |             |

Four Member Bodies opposed the approval of the Draft :

Denmark  
Germany  
New Zealand  
United Kingdom

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in February 1970, to accept it as an ISO RECOMMENDATION.
