Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 1420, *Determination of the impermeability to water of fabrics coated with rubber or plastics*, was drawn up by Technical Committee ISO/TC 45, *Rubber*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question led to the adoption of Draft ISO Recommendation No. 1420, which was circulated to all the ISO Member Bodies for enquiry in December 1967. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	India	New Zealand
Austria	Iran	Poland
Czechoslovakia	Ireland	Spain
France	Israel	Sweden
Germany	Italy	Switzerland
Greece	Japan	U.A.R.
Hungary	Netherlands	United Kingdom

The following Member Body opposed the approval of the Draft :

U.S.A.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
