BRIEF HISTORY

The ISO Recommendation R 1570, *Chemical analysis of zinc and zinc alloys – Spectrophotometric determination of tin*, was drawn up by Technical Committee ISO/TC 18, *Zinc and zinc alloys*, the Secretariat of which is held by the Institut Belge de Normalisation (IBN).

Work on this question led to the adoption of Draft ISO Recommendation No. 1570, which was circulated to all the ISO Member Bodies for enquiry in April 1968. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	India	Spain
Belgium	Iran	Sweden
Brazil	Ireland	Thailand
Canada	Israel	Turkey
Czechoslovakia	Italy	U.A.R.
France	Norway	United Kingdom
Germany	Poland	U.S.S.R.
Hungary	South Africa, Rep. of	Yugoslavia

No Member Body opposed the approval of the Draft.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
