## BRIEF HISTORY

The ISO Recommendation R 1663, *Plastics – Determination of water vapour transmission rate of rigid cellular plastics*, was drawn up by Technical Committee ISO/TC 61, *Plastics*, the Secretariat of which is held by the American National Standards Institute (ANSI).

Work on this question led to the adoption of Draft ISO Recommendation No. 1663, which was circulated to all the ISO Member Bodies for enquiry in August 1968. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

|                |                |                       |
|----------------|----------------|-----------------------|
| Austria        | India          | South Africa, Rep. of |
| Belgium        | Iran           | Spain                 |
| Brazil         | Israel         | Sweden                |
| Canada         | Italy          | Switzerland           |
| Colombia       | Japan          | Turkey                |
| Czechoslovakia | Korea, Rep. of | U.A.R.                |
| France         | Netherlands    | United Kingdom        |
| Germany        | New Zealand    | U.S.A.                |
| Greece         | Poland         | U.S.S.R.              |
| Hungary        | Romania        |                       |

No Member Body opposed the approval of the Draft.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
