BRIEF HISTORY

The ISO Recommendation R 1749, *Elastomeric sealing rings for aircraft – Packaging and identification*, was drawn up by Technical Committee ISO/TC 20, *Aircraft and space vehicles*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question led to the adoption of Draft ISO Recommendation No. 1749, which was circulated to all the ISO Member Bodies for enquiry in April 1968. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	India	Switzerland
Austria	Israel	Thailand
Belgium	Italy	Turkey
Brazil	Netherlands	U.A.R.
Canada	New Zealand	United Kingdom
Czechoslovakia	Peru	U.S.S.R.
France	South Africa, Rep. of	
Greece	Spain	

No Member Body opposed the approval of the Draft.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
