For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

## BRIEF HISTORY

The ISO Recommendation R 1848, *Higher alcohols for industrial use – Determination of bromine index in the presence of mercury (II) chloride*, was drawn up by Technical Committee ISO/TC 47, *Chemistry*, the Secretariat of which is held by the Ente Nazionale Italiano di Unificazione (UNI).

Work on this question led to the adoption of Draft ISO Recommendation No. 1848, which was circulated to all the ISO Member Bodies for enquiry in April 1969. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

|                |             |                       |
|----------------|-------------|-----------------------|
| Australia      | India       | South Africa, Rep. of |
| Austria        | Iran        | Spain                 |
| Belgium        | Israel      | Switzerland           |
| Brazil         | Italy       | Turkey                |
| Czechoslovakia | Netherlands | U.A.R.                |
| France         | Peru        | United Kingdom        |
| Germany        | Poland      | U.S.S.R.              |
| Greece         | Portugal    |                       |
| Hungary        | Romania     |                       |

The following Member Body opposed the approval of the Draft :

New Zealand

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
