BRIEF HISTORY

The ISO Recommendation R 188, *Accelerated Ageing or Simulated Service Tests on Vulcanized Natural or Synthetic Rubbers*, was drawn up by Technical Committee ISO/TC 45, *Rubber*, the Secretariat of which is held by the British Standards Institution (B.S.I.).

Work on this matter which the Technical Committee had begun since 1948, came to an end in 1957, with the adoption of a proposal as a Draft ISO Recommendation.

On 17 July 1957, the Draft ISO Recommendation (No. 171) was distributed to all the ISO Member Bodies and was approved by the following Member Bodies:

Australia	Hungary	Romania
Austria	India	Spain
Burma	Ireland	Sweden
Canada	Italy	Switzerland
Czechoslovakia	Japan	Union of South Africa
Denmark	New Zealand	United Kingdom
Finland	Pakistan	U.S.A.
Germany	Poland	U.S.S.R.
Greece	Portugal	

One Member Body opposed the approval of the Draft: France.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in February 1961, to accept it as an ISO RECOMMENDATION.
