BRIEF HISTORY

The ISO Recommendation R 1939, *Pneumatic cylinders – Cylinder bores and port sizes*, was drawn up by Technical Committee ISO/TC 39, *Machine tools*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question led to the adoption of Draft ISO Recommendation No. 1939, which was circulated to all the ISO Member Bodies for enquiry in November 1969. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Belgium	Italy	Sweden
France	Japan	Switzerland
Germany	Poland	Thailand
Greece	Portugal	U.A.R.
Hungary	Romania	United Kingdom
India	South Africa, Rep. of	U.S.S.R.
Israel	Spain	

The following Member Body opposed the approval of the Draft :

U.S.A.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
