FRONT LENS BARRELS UP TO 100 mm

DIMENSIONS IMPORTANT TO THE CONNECTION OF AUXILIARIES

1. SCOPE

This ISO Recommendation specifies a standard series of diameter sizes for the front part of a lens barrel (dimension B in the Figure) and a standard series of thread sizes (dimension A in the Figure) for the same front barrel. It is applicable to camera lenses and lenses for enlargers and similar equipment. It is intended that these standard sizes will simplify the production and storage of such auxiliary equipment as filters.

2. DIMENSIONS
