For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 2101, *Aluminium and aluminium alloys – Shear test for rivet wire and rivets*, was drawn up by Technical Committee ISO/TC 79, *Light metals and their alloys*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question led to the adoption of Draft ISO Recommendation No. 2101, which was circulated to all the ISO Member Bodies for enquiry in October 1970. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Austria	Italy	Spain
Belgium	Japan	Sweden
Canada	Korea, Rep. of	Switzerland
Finland	Netherlands	Thailand
France	New Zealand	Turkey
Germany	Norway	U.A.R.
Hungary	Poland	United Kingdom
India	Portugal	U.S.A.
Israel	South Africa, Rep. of	U.S.S.R.

No Member Body opposed the approval of the Draft.

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
