Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 2150, *Continuous mechanical handling equipment for unit loads – Overhead twin rail chain conveyors (power and free) – Safety code*, was drawn up by Technical Committee ISO/TC 101, *Continuous mechanical handling equipment*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question led to the adoption of Draft ISO Recommendation No. 2150, which was circulated to all the ISO Member Bodies for enquiry in October 1970.

The Draft has been approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	Japan	Thailand
Austria	Korea, Rep. of	U.A.R.
Belgium	Netherlands	United Kingdom
Czechoslovakia	New Zealand	U.S.A.
France	South Africa, Rep. of	U.S.S.R.
Germany	Spain	
India	Sweden	

No Member Body opposed the approval of the Draft .

This Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided to accept it as an ISO RECOMMENDATION.
