The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organization.

## BRIEF HISTORY

The ISO Recommendation R 225, *Bolts, Screws and Studs. Dimensioning*, was drawn up by Technical Committee ISO/TC 2, *Bolts, Nuts and Accessories*, the Secretariat of which is held by the Deutscher Normenausschuss (DNA).

Work on this question by the Technical Committee began in 1949 and led in 1958 to the adoption of a Draft ISO Recommendation.

In January 1960, this Draft ISO Recommendation (No. 354) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to some editorial amendments, by the following Member Bodies:

|                |             |                |
|----------------|-------------|----------------|
| Australia      | Germany     | Poland         |
| Austria        | Greece      | Portugal       |
| Belgium        | Hungary     | Romania        |
| Burma          | India       | Spain          |
| Chile          | Ireland     | Sweden         |
| Colombia       | Italy       | Switzerland    |
| Czechoslovakia | Japan       | United Kingdom |
| Denmark        | Netherlands | U.S.A.         |
| Finland        | New Zealand | U.S.S.R.       |
| France         | Norway      |                |

One Member Body opposed the approval of the Draft:

Israel.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in December 1961, to accept it as an ISO RECOMMENDATION.
