BRIEF HISTORY

The ISO Recommendation R 254, *Quality, Machining and Balancing of Transmission Pulleys*, was drawn up by Technical Committee ISO/TC 41. *Pulleys and Belts (Including V-Belts)*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question by the Technical Committee began in 1956 and led, in 1959, to the adoption of a Draft ISO Recommendation.

In May 1960, this Draft ISO Recommendation (No. 374) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Australia	Finland	New Zealand
Argentina	France	Portugal
Belgium	Germany	Romania
Brazil	Greece	Spain
Chile	India	Sweden
Colombia	Israel	Switzerland
Czechoslovakia	Japan	United Kingdom
Denmark	Netherlands	U.S.S.R.

Two Member Bodies opposed the approval of the Draft:

Hungary, U.S.A.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in March 1962, to accept it as an ISO RECOMMENDATION.
