BRIEF HISTORY

The ISO Recommendation R 266, *Preferred Frequencies for Acoustical Measurements*, was drawn up by the Technical Committee ISO/TC 43, *Acoustics*, the Secretariat of which is held by the British Standards Institution (B.S.I.).

Work on this question by the Technical Committee began in 1957, and led, in 1960, to the adoption of a Draft ISO Recommendation.

In November 1960, this Draft ISO Recommendation (No. 402) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Australia	France	New Zealand
Austria	Germany	Sweden
Belgium	Hungary	Switzerland
Chile	India	United Kingdom
Denmark	Iran	U.S.A.
Finland	Netherlands	U.S.S.R.

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in August 1962, to accept it as an ISO RECOMMENDATION.
