January 1963

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 290, *Common Names for Pesticides—Fourth List*, was drawn up by Technical Committee ISO/TC 81, *Common Names for Pesticides*, the Secretariat of which is held by the British Standards Institution (B.S.I.).

Work on this question by the Technical Committee began in 1959 and led, in 1960, to the adoption of a Draft ISO Recommendation.

In October 1960, this Draft ISO Recommendation (No. 412) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few amendments, by the following Member Bodies:

Austria	Germany	New Zealand
Belgium	Greece	Poland
Brazil	Hungary	Spain
Canada	India	Sweden
Chile	Iran	Turkey
Czechoslovakia	Israel	United Kingdom
Denmark	Italy	U.S.S.R.

Two Member Bodies opposed the approval of the Draft:

France, Republic of South Africa.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in January 1963, to accept it as an ISO RECOMMENDATION.

COMMON NAMES FOR PESTICIDES

FOURTH LIST *

FOREWORD

This ISO Recommendation gives the fourth list of common names approved by Technical Committee ISO/TC 81, *Common Names for Pesticides*, for certain pesticides of international importance. The chemical name in conformity with the rules of the International Union of Pure and Applied Chemistry (IUPAC) is given in each case. Where the interpretations of the rules of IUPAC by The Chemical Society, London, and the American Chemical Society, New York, differ, both versions are given. That of The Chemical Society is indicated by an asterisk (*), that of the American Chemical Society by a dagger (†). Chemical formulae and notes concerning some of the names are given. The application of each compound is given in a separate column according to the following classes:

- A Insecticides or acaricides
- B Fungicides
- C Herbicides
- D Rodenticides

It is proposed in due course to issue further ISO Recommendations for approved common names. In some cases, widely used names are not available for international use at the present time, because they are protected by trade marks in certain countries.

* The foregoing lists constitute the subject-matter of the following ISO Recommendations:

R 116, *Common Names for Pesticides. First List*,
R 219, *Common Names for Pesticides. Second List*,
R 258, *Common Names for Pesticides. Third List*.
