Also issued in French and Russian. Copies to be obtained through the national standards organizations

BRIEF HISTORY

The ISO Recommendation R 301, *Zinc Alloy Ingots*, was drawn up by Technical Committee ISO/TC 18, *Zinc and Zinc Alloys*, the Secretariat of which is held by the Institut Belge de Normalisation (IBN).

Work on this question by the Technical Committee began in 1956 and led, in 1960, to the adoption of a Draft ISO Recommendation.

In February 1961, this Draft ISO Recommendation (No. 437) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Australia	Greece	Portugal
Austria	India	Romania
Belgium	Iran	Spain
Brazil	Italy	Sweden
Canada	Japan	Switzerland
Chile	Mexico	United Kingdom
Colombia	Netherlands	Yugoslavia
Denmark	New Zealand	
France	Poland	

One Member Body opposed the approval of the Draft: Germany.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in April 1963, to accept it as an ISO RECOMMENDATION.
