For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 34, *Determination of Tear Strength of Vulcanized Natural and Synthetic Rubbers (Crescent Test Piece)*, was drawn up by the Technical Committee ISO/TC 45, *Rubber*, the Secretariat of which is held by the British Standards Institution (B.S.I.).

The draft proposal put forward by the Secretariat was considered and amended at the meetings held in London (1948), the Hague (1949), Akron (1950), Oxford (1951) and Paris (1953).

On 28 August 1954, the Draft ISO Recommendation proposed by the Technical Committee ISO/TC 45 was submitted to all ISO Member Bodies and approved, subject to certain editorial amendments, by the following 23 (out of a total of 34) Member Bodies:

Austria	*New Zealand
*Canada	Pakistan
Denmark	Portugal
Finland	Spain
France	Sweden
India	Switzerland
*Ireland	Union of South Africa
Israel	United Kingdom
Italy	U.S.A.
*Japan	U.S.S.R.
*Mexico	Yugoslavia
Netherlands	

No Member Body opposed the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in March 1957, to accept it as an ISO RECOMMENDATION.

* These Member Bodies stated that they had no objection to the Draft being approved.
