The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 340, *Flame Resistance of Conveyor Belts—Specifications and Method of Test*, was drawn up by Technical Committee ISO/TC 41, *Pulleys and Belts (including Vee-Belts)*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question by the Technical Committee began in 1958 and led, in 1961, to the adoption of a Draft ISO Recommendation.

In December 1961, this Draft ISO Recommendation (No. 494) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Argentina	France	New Zealand
Austria	Germany	Portugal
Belgium	Greece	Spain
Brazil	India	Sweden
Bulgaria	Ireland	Switzerland
Czechoslovakia	Israel	United Kingdom
Denmark	Italy	U.S.A.
Finland	Netherlands	U.S.S.R.
		Yugoslavia

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in September 1963, to accept it as an ISO RECOMMENDATION.
