COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 375, *Tensile Testing of Steel Tubes*, was drawn up by Technical Committee ISO/TC 17, *Steel*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question by the Technical Committee began in 1954 and led, in 1962, to the adoption of a Draft ISO Recommendation.

In November 1962, this Draft ISO Recommendation (No. 519) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Australia	France	Romania
Austria	Hungary	Spain
Belgium	India	Sweden
Brazil	Ireland	Switzerland
Burma	Italy	Turkey
Canada	Japan	United Kingdom
Chile	Netherlands	U.S.A.
Czechoslovakia	New Zealand	U.S.S.R.
Denmark	Norway	Yugoslavia
Finland	Poland	

One Member Body opposed the approval of the Draft: Germany.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in August 1964, to accept it as an ISO RECOMMENDATION.
