For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 441, *Drop Wires for Mechanical and Electrical Warp Stop Motions*, was drawn up by Technical Committee ISO/TC 72, *Textile Machinery and Accessories*, the Secretariat of which is held by the Association Suisse de Normalisation (SNV).

Work on this question by the Technical Committee began in 1950 and led in 1956, to the adoption of two Draft ISO Recommendations.

These first Draft ISO Recommendations (Nos. 127 and 128) were circulated to all the ISO Member Bodies for enquiry, in September 1956. As the results of this consultation were not considered satisfactory, the Technical Committee presented two second Draft ISO Recommendations, which were circulated to all the ISO Member Bodies in September 1963, and which were approved by the following Member Bodies:

– for Draft ISO Recommendation No. 127:

Argentina	Greece	Poland
Brazil	Hungary	Spain
Colombia	Italy	Switzerland
Czechoslovakia	Korea (Rep. of)	United Kingdom
France	Netherlands	Turkey
Germany	New Zealand	

Two Member Bodies opposed the approval of the second Draft:

India
U.S.S.R.

– for Draft ISO Recommendation No. 128:

Brazil	Hungary	Poland
Colombia	India	Spain
Czechoslovakia	Italy	Switzerland
France	Korea (Rep. of)	United Kingdom
Germany	Netherlands	Turkey
Greece	New Zealand	

One Member Body opposed the approval of the second Draft: U.S.S.R.

These two Draft ISO Recommendations were then submitted by correspondence to the ISO Council, which decided, in July 1965, to accept them as an ISO RECOMMENDATION.
