Also issued in French and Russian. Copies to be obtained through the national standards organizations

BRIEF HISTORY

The ISO Recommendation R 480, *Perforated Metal Cheese Centres for Bast Fibre Yarns*, was drawn up by Technical Committee ISO/TC 72, *Textile Machinery and Accessories*, the Secretariat of which is held by the Association Suisse de Normalisation (SNV).

Work on this question by the Technical Committee began in 1959 and led, in 1962, to the adoption of a Draft ISO Recommendation.

In September 1963, this Draft ISO Recommendation (No. 602) was circulated to all the ISO Member Bodies for enquiry. It was approved, by the following Member Bodies:

Brazil	Italy	Switzerland
Czechoslovakia	Japan	Turkey
France	Netherlands	United Kingdom
Germany	New Zealand	U.S.S.R.
Hungary	Poland	Yugoslavia
India	Spain	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in April 1966, to accept it as an ISO RECOMMENDATION.
