PLASTICS

METHODS FOR MAINTAINING CONSTANT RELATIVE HUMIDITY IN SMALL ENCLOSURES BY MEANS OF AQUEOUS SOLUTIONS

1st EDITION

April 1966

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 483, *Plastics — Methods for Maintaining Constant Relative Humidity in Small Enclosures by Means of Aqueous Solutions*, was drawn up by Technical Committee ISO/TC 61, *Plastics*, the Secretariat of which is held by the American Standards Association, Inc. (ASA).

Work on this question by the Technical Committee began in 1958 and led, in 1962, to the adoption of a Draft ISO Recommendation.

In July 1963, this Draft ISO Recommendation (No. 597) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Argentina	Germany	New Zealand
Australia	Hungary	Poland
Austria	India	Portugal
Belgium	Israel	Romania
Canada	Italy	Sweden
Colombia	Japan	Switzerland
Czechoslovakia	Korea, Rep. of	U.S.A.
Finland	Netherlands	U.S.S.R.

Two Member Bodies opposed the approval of the Draft:

France
United Kingdom

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in April 1966, to accept it as an ISO RECOMMENDATION.
