BRIEF HISTORY

The ISO Recommendation R 485, *Aircraft Water-Methanol Pressure Connections*, was drawn up by Technical Committee ISO/TC 20, *Aircraft*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question by the Technical Committee began in 1955 and led, in 1957, to the adoption of a Draft ISO Recommendation.

In October 1960, this Draft ISO Recommendation (No. 409) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Belgium	Israel	Spain
Canada	Italy	Sweden
Chile	Japan	Turkey
Czechoslovakia	Netherlands	United Kingdom
France	New Zealand	U.S.S.R.
Germany	Poland	Yugoslavia
Iran	Portugal	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in May 1966, to accept it as an ISO RECOMMENDATION.
