For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 564, *Designations, Diameters and Breaking Strengths of Preformed Stranded Steel Cables for Aircraft Controls*, was drawn up by Technical Committee ISO/TC 20, *Aircraft*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question by the Technical Committee began in 1958 and led, in 1964, to the adoption of a Draft ISO Recommendation.

In January 1965, this Draft ISO Recommendation (No. 787) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Australia	Israel	Sweden
Belgium	Italy	Switzerland
Canada	Japan	Turkey
Denmark	Korea, Rep. of	U.A.R.
France	Netherlands	United Kingdom
Germany	Portugal	U.S.S.R.
Iran	Spain	

One Member Body opposed the approval of the Draft:

Czechoslovakia

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in March 1967 to accept it as an ISO RECOMMENDATION.
