ISO RECOMMENDATION R 583

TOLERANCES ON THE TOTAL THICKNESS
OF CONVEYOR BELTS
AND ON THE THICKNESSES OF COVERS

1st EDITION
July 1967

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 583, *Tolerances on the Total Thickness of Conveyor Belts and on the Thicknesses of Covers*, was drawn up by Technical Committee ISO/TC 41, *Pulleys and Belts (including Vee-belts)*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question by the Technical Committee began in 1957 and led, in 1964, to the adoption of a Draft ISO Recommendation.

In October 1965, this Draft ISO Recommendation (No. 864) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Argentina	France	Portugal
Australia	Germany	Spain
Austria	India	Sweden
Belgium	Ireland	Switzerland
Brazil	Israel	U.A.R.
Chile	Italy	U.S.S.R.
Czechoslovakia	Japan	Yugoslavia
Denmark	Netherlands	
Finland	New Zealand	

One Member Body opposed the approval of the Draft:

United Kingdom

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in July 1967, to accept it as an ISO RECOMMENDATION.
