DETERMINATION OF CHLORINE IN COAL AND COKE USING ESCHKA MIXTURE

1st EDITION

July 1967

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 587, *Determination of Chlorine in Coal and Coke using Eschka Mixture*, was drawn up by Technical Committee ISO/TC 27, *Solid Mineral Fuels*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question by the Technical Committee began in 1951 and led, in 1961, to the adoption of a Draft ISO Recommendation.

In March 1964, this Draft ISO Recommendation (No. 677) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Australia	Germany	Romania
Austria	India	Switzerland
Belgium	Italy	Turkey
Brazil	Japan	U.A.R.
Canada	Korea, Rep. of	United Kingdom
Chile	Netherlands	U.S.A.
Colombia	New Zealand	U.S.S.R.
Czechoslovakia	Poland	
Denmark	Republic	
France	of South Africa	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in July 1967, to accept it as an ISO RECOMMENDATION.
