BRIEF HISTORY

The ISO Recommendation R 614, *Shipbuilding Details—Testing of Toughened Glasses for Ships' Side Scuttles and Fixed Lights by the Punch Method*, was drawn up by Technical Committee ISO/TC 8, *Shipbuilding Details*, the Secretariat of which is held by the Netherlands Normalisatie-instituut (NNI).

Work on this question by the Technical Committee began in 1960 and led, in 1964, to the adoption of a Draft ISO Recommendation.

In January 1965, this Draft ISO Recommendation (No. 777) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies:

Australia	Germany	Spain
Belgium	Greece	Sweden
Canada	India	Turkey
Chile	Israel	U.A.R.
Czechoslovakia	Korea, Rep. of	United Kingdom
Finland	Netherlands	Yugoslavia
France	Poland	

One Member Body opposed the approval of the Draft:

Japan

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in August 1967, to accept it as an ISO RECOMMENDATION.
