BRIEF HISTORY

The ISO Recommendation R 63, *Lengths of Flat Transmission Belts*, was drawn up by Technical Committee ISO/TC 41, *Pulleys and Belts (including V-Belts)*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

It was at its meeting in Stockholm, in June 1955, that the Technical Committee adopted, unanimously by the delegations present, the resolutions on which this Recommendation is based.

After the Stockholm meeting, a draft proposal was submitted to the members of Technical Committee ISO/TC 41. No comments having been received, the draft proposal was sent to the General Secretariat which placed it before all the ISO Member Bodies, as a Draft ISO Recommendation.

The following 23 (out of a total of 38) Member Bodies approved the Draft without reserve:

Austria	Hungary	Pakistan
Belgium	India	Poland
*Canada	*Ireland	Spain
Denmark	Italy	Sweden
Finland	Japan	Switzerland
France	*Mexico	United Kingdom
Germany	Netherlands	U.S.S.R.
Greece	New Zealand	

However, the Bulgarian and the U.S.A. Member Bodies did not approve it.

In April 1958, the ISO Council decided, by correspondence, to accept the Draft ISO Recommendation as an ISO RECOMMENDATION.

* These Member Bodies stated that they had no objection to the Draft being approved.
