INTERNATIONAL ORGANIZATION FOR STANDARDIZATION

ISO RECOMMENDATION

R 668

DIMENSIONS AND RATINGS OF FREIGHT CONTAINERS

2nd EDITION

October 1970

This second edition supersedes the first edition.

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 668, *Dimensions and ratings of freight containers*, was drawn up by Technical Committee ISO/TC 104, *Freight containers*, the Secretariat of which is held by the American National Standards Institute (ANSI).

Work on this question led to the adoption of Draft ISO Recommendation No. 804, which was circulated to all ISO Member Bodies for enquiry in May 1965. It was approved by 20 Member Bodies. Five Member Bodies opposed the approval of the Draft (Australia, France, Ireland, Poland and the U.S.S.R.).

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided in February 1968 to accept it as an ISO RECOMMENDATION.

BRIEF HISTORY RELATING TO THE 2nd EDITION

The revision of ISO Recommendation R 668-1968 was undertaken in 1969 and consists of minor modifications and of the addition of a supplementary container height in Table 3.

This revision was approved by the majority of the P-Members of ISO/TC 104, and, in an abbreviated procedure, as Draft ISO Recommendation No. 2183 was submitted direct to the ISO Council, which decided to accept it as the second edition of ISO Recommendation R 668.

This edition cancels and supersedes the first edition of ISO Recommendation R 668-1968.
