February 1968

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 673, *Analysis of soaps – Determination of foreign matter of low solubility in ethanol*, was drawn up by Technical Committee ISO/TC 91, *Surface active agents*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question by the Technical Committee began in 1963 and led, in 1964, to adoption of a Draft ISO Recommendation.

In October 1965, this Draft ISO Recommendation (No. 834) was circulated to all the ISO Member Bodies for enquiry. It was approved subject to a few modifications of an editorial nature, by the following Member Bodies :

Argentina	Hungary	South Africa,
Austria	Ireland	Rep. of
Belgium	Israel	Spain
Brazil	Japan	Sweden
Canada	Netherlands	Switzerland
Chile	New Zealand	U.A.R.
Colombia	Poland	United Kingdom
France	Portugal	Yugoslavia
Germany	Romania	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in February 1968 to accept it as an ISO RECOMMENDATION.
