ISO RECOMMENDATION R 767

FIBRE BUILDING BOARDS

DETERMINATION OF MOISTURE CONTENT

1st EDITION

June 1968

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 767, *Fibre building boards – Determination of moisture content*, was drawn up by Technical Committee ISO/TC 89, *Boards made from wood or other ligno-cellulosic fibrous materials*, the Secretariat of which is held by the Deutscher Normenausschuss (DNA).

Work on this question by the Technical Committee began in 1959 and led, in 1964, to the adoption of a Draft Recommendation.

In October 1965, this Draft ISO Recommendation (No. 841) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Argentina	Hungary	South Africa,
Australia	India	Rep. of
Austria	Ireland	Spain
Belgium	Israel	Sweden
Brazil	Japan	Switzerland
Canada	Netherlands	U.A.R.
Czechoslovakia	New Zealand	United Kingdom
Finland	Poland	U.S.S.R.
France	Portugal	Yugoslavia
Germany	Romania	

No Member Body opposed the approval of the Draft.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in June 1968, to accept it as an ISO RECOMMENDATION.
