ISO RECOMMENDATION R 871

PLASTICS

DETERMINATION OF THE TEMPERATURE OF EVOLUTION
OF FLAMMABLE GASES FROM PLASTICS

1st EDITION

November 1968

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

BRIEF HISTORY

The ISO Recommendation R 871, *Plastics – Determination of the temperature of evolution of flammable gases from plastics*, was drawn up by Technical Committee ISO/TC 61, *Plastics*, the Secretariat of which is held by the United States of America Standards Institute (USASI).

Work on this question led, in 1965, to the adoption of a Draft ISO Recommendation.

In September 1966, this Draft ISO Recommendation (No. 991) was circulated to all the ISO Member Bodies for enquiry. It was approved, subject to a few modifications of an editorial nature, by the following Member Bodies :

Australia	Iran	South Africa, Rep. of
Austria	Ireland	Spain
Belgium	Israel	Sweden
Brazil	Italy	Switzerland
Bulgaria	Japan	Thailand
Chile	Korea, Rep. of	U.A.R.
Czechoslovakia	Netherlands	United Kingdom
Finland	New Zealand	U.S.A.
France	Poland	U.S.S.R.
Hungary	Portugal	
India	Romania	

Two Member Bodies opposed the approval of the Draft :

Canada
Turkey

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council, which decided, in November 1968, to accept it as an ISO RECOMMENDATION.
